---

## WORK EXPERIENCE

### Senior Frontend Developer - Kossan Rubber Industries Bhd.

Feb 2025 - Present

- Drove frontend development for Kossan's core MES project, contributing from initial planning and system design to full UI implementation, streamlining critical factory workflows.
- Crafted and presented interactive Figma prototypes for stakeholder approval, then developed robust, responsive interfaces using Vue.js, Vuex, JavaScript, SCSS, and Bootstrap.
- Ensured seamless system integration and performance by collaborating with backend teams, managing code via Local Git, and optimizing for consistency and scalability across modules.

### Senior Flutter Developer - Awfatech Global Sdn Bhd

Nov 2023 - Jan 2025

- Developing for thousands of businesses and near about a million of existing users by working in a team of seven members to deliver Enterprise Management System Applications, using latest technologies that offers useful features with optimized, secured, and enhanced user experience.
- Optimized the company project structure, as measured by a 30% reduction in project duration, by using Flutter-optimized clean code, custom widgets and the latest technology and packages.
- Enhanced application functionality and scalability by leading the integration of RESTful APIs and third-party services as per needs.

### Software Engineer - Awfatech Global Sdn Bhd

Dec 2022 - Oct 2023

- Application modernization was achieved by converting current apps to Flutter and incorporating new features that synchronize mobile calendars, Google maps, and other features. This was measured by improved user efficiency and faster performance.
  - Increased overall applications quality by addressing bugs, maintaining, and working with UI designers, backend developers, and application testers. This was demonstrated by enhanced UI/UX.
  - Added value to applications by continuously hunting for new functionality and updated technology.
- 

## COURSES

### The Complete Flutter Development Bootcamp with Dart - Udemy

Certification

Completed a hands-on Flutter bootcamp by Dr. Angela Yu, mastering cross-platform app development with Dart, state management, APIs, and responsive UI for both iOS and Android platforms.

### Complete Web Development Course - Programming Hero

Certification

Completed an intensive Web Development course with Programming Hero in July 2022, mastering HTML, CSS, JavaScript, and React, and ranked in the top 15% through hands-on project excellence.

---

## ACHIVEMENT

Won second place out of 48 teams in End Game Contest at Programming Hero by working with five team members to develop a web application that provide ecommerce and reader club services | Reference
